

# 16 YEARS, 16 MILESTONES

Discover **our history of laboratory  
*design innovation***

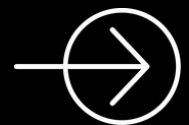

# 01

## INSPIRING *beginnings*

From day one, we set out to revolutionize the design of laboratories, marking a before and after in the way these spaces are conceived.

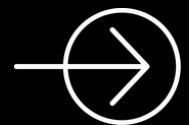

We developed a European patent for Modular Laboratory Construction together with the **ULMA Group**.

# 02

## FIRST SUCCESSFUL *project*

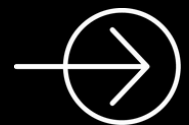

In 2013 we executed our first laboratory project, which involved the management, development and adaptation of 900 m<sup>2</sup> of laboratory space inside an industrial building for **the biotechnology research company AMSlab.**

# 03

## Sharing *KNOWLEDGE*

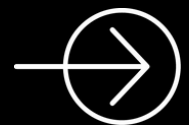

We are members of prominent committees within the laboratory world, contributing with our expertise and committed to promoting improvements in the **evolution towards sustainable laboratories of the future.**

# 04

## EXPANSIÓN *Nacional*

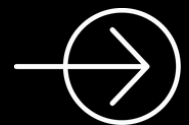

HibLab has consolidated its position as a benchmark in laboratory design throughout Spain thanks to the projects carried out at the **Gregorio Marañón University Hospital in Madrid, Puerto Real in Cádiz and Jerez de la Frontera**, among others.

# 05

## INCURSIÓN *Internacional*

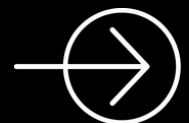

We cross borders to design consulting, labplanning, engineering and supply and installation of laboratory furniture projects in **Saudi Arabia, Oman, Kuwait and the United Arab Emirates.**

# 06

## PREMIO a la *innovación*

We won our first prize for the most innovative company with **Global Presence of the Basque Economy (Innobasque)**.

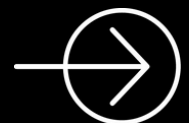

# 07

## COLABORACIÓN con *grandes marcas*

We started partnerships with leading companies such as **Merck, Tecnia Research & Innovation, Barcelona Science Park, Atotech, Rey Juan Carlos University...**

Great alliances that allow us to continue creating a future of trust.

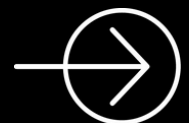

# 08

## LANZAMIENTO de servicios laboratorios *llave en mano*

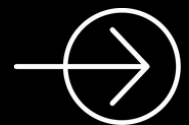

HibLab becomes a pioneer in offering **comprehensive solutions by carrying out the comprehensive execution** of the scientific laboratory infrastructure that houses the new Galchimia headquarters in Touro, Galicia.

# 09

## PROYECTOS *Educativos*

We designed the **61 laboratories and two workshops of the CACTI** at the University of Vigo, nearly 1,800 m<sup>2</sup> of educational spaces that support scientific-technological research and are committed to making an impact on the training of the future.

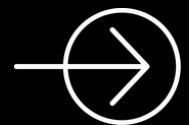

# 10

## COMPROMISO *Sostenible*

We started programs to make our designs more sustainable and eco-friendlier.

Our products are manufactured under **the European environmental management standard ISO 14001:2015.**

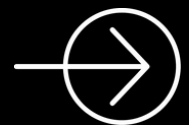

# 11

## DESARROLLO de mobiliario de *laboratorio curvo*

In 2015 we produced the first prototype of **the curved sink model of the SLine** line of our laboratory furniture.

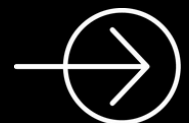

We were pioneers in the design of **organic and ergonomic shapes** in traditionally functional spaces.

# 12

## DIGITALIZACIÓN de *Procesos*

We implement digital technologies to **optimize the production and execution of projects**, reducing costs from design to our production and logistics plants.

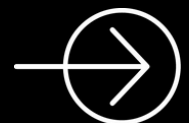

# 13

## MÁS ALLÁ de los *Laboratorios*

We explore the design of scientific spaces beyond traditional laboratories.

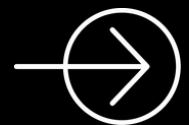

Signage applied to laboratory design, generating a workspace with key elements of corporate identity.

# 14

## APOYO al *sector sanitario*

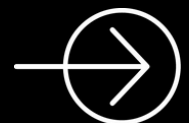

In 2020, we started the refurbishment of **the new laboratory spaces of Janssen Pharmaceuticals** in Toledo supporting the development of Covid-19 vaccines.

# 15

## INTEGRACIÓN de *tecnologías avanzadas*

We create a **unique management software** that integrates the different processes of the company in the way of **planning, designing and managing laboratory spaces in particular and space management** in general  
**#SPACELAB #Space4All**

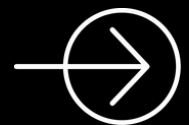

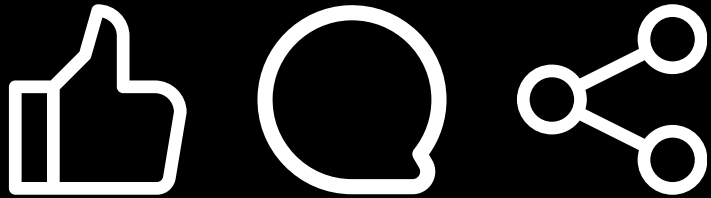

# 16

## UN GRAN PROYECTO *de laboratorios*

In this last year we have put the icing on the cake with **the creation of a European flagship laboratory** of more than 2,200 m<sup>2</sup> for the clinical research company **CTI Clinical Trial and Consulting Services.**

If you liked it,

***keep it.***
